Approval record, Requested Item and Catalog Task verification

Demo Screen 3 – Generated Catalog Task

12. Scroll down to the " Catalog tasks " Section
13. Open the record to see the updated status of the record with Short description and Assigned group.

Conclusion :

By automating the standard laptop procurement process with ServiceNow's Flow Designer, the project effectively addresses inefficiencies and reduces manual overhead. This streamlined workflow ensures timely configuration of laptops, minimizes user wait times, and enhances overall productivity within the IT department. The implementation of this automated solution not only optimizes resource allocation but also significantly improves the user experience by providing a seamless and efficient procurement process.

Generated Catalog Task details and status

Demo sequence: Standard Laptop selection → Order Now → Request Number → Approval → Requested Item → Catalog Task → Hardware assignment. This demonstrates the configured Flow Designer automation for the project.
